

TUBE CUTTER / PIPE CUTTER fitted with Bearings PAT.

PIPING TOOLS

Clean cutting of material from stainless steel to copper tube!!

Rollers and cutter wheels are fitted with bearings.

TUBE CUTTER
SuCut (superb cut)

TCB105 and 107 are embedded with a chamfering knife.

New series

TCB 104 ~ 502

Light.

The body and the knob are made of aluminum alloy, being light in weight. Compactly designed and easy to use. Gorgeous baking finishing with champagne-gold color.

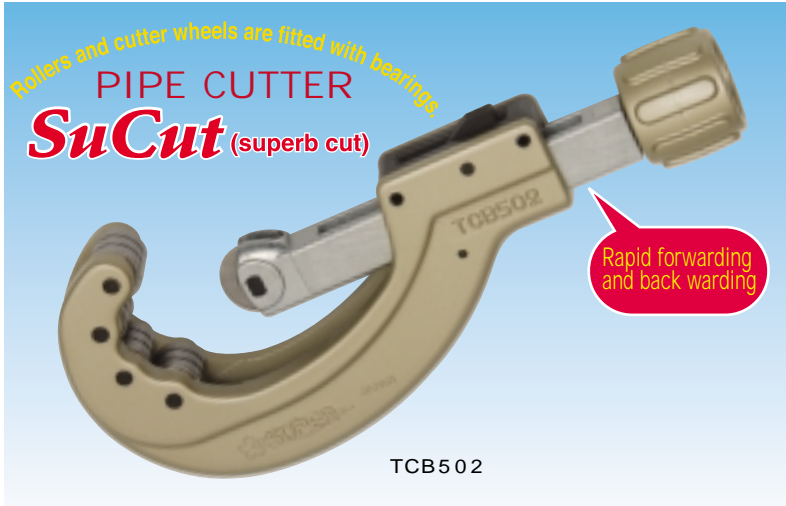

Sharp

The material used for cutter wheels is special alloy steel, which provides the cutting edge with sharpness through heat treatment, while attachment of bearings provides further rigidity and durability.

Easy

Clear cutting with ease by "human-friendly" soft strength due to the attached roller bearings.
