

JIB CRANE with Electric power chain block

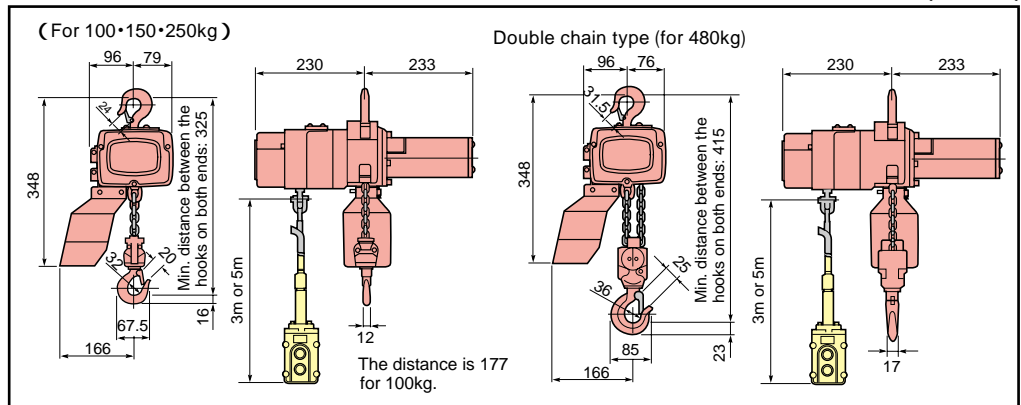

Compact and high power

- Optimal electric chain block for our Crane specifications
- Equipped with a safety mechanism by which to prevent both overloading and overwinding.
- Unique braking mechanism keeps long-term braking power despite strenuous use.
- Two-stepped velocity is available just through the single-phase 100V power source.

Dimensions of electric chain block

(Unit:mm)

The length of power cord for the chain block is 5m.
The length of the press button cord is 3 or 5m (same as lifting height).

SPECIFICATIONS

Item name./Item No.	Chain block specifications	
	Weight(kg)	Rated capacity (kg) × Lifting height (m)
FLOOR FIXED TYPE
