

PVC PIPE CUTTER

VK 20 · 30

The ratchet mechanism enables speedy and easy single hand cutting.
No scraps after cutting, excellent cut, superb cut surface.

- Applicable pipes for PVC cutter**
- Chloride vinyl (VP) standard pipe
 - Wiring pipe(VE)
 - Polyethylene pipe(PE)
 - Other polyethylene pipes

Example of use

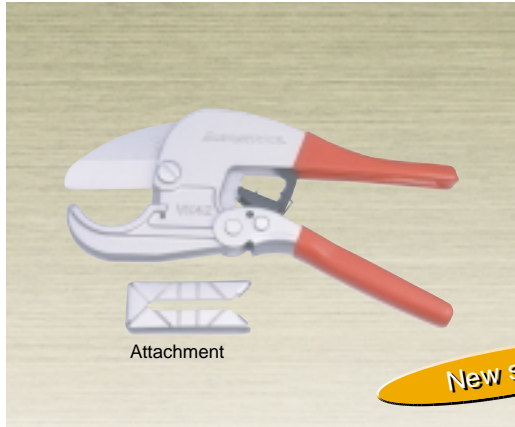

⚠ A quick feeding mechanism is applied to the blade of VK30. Never put the hands or fingers between the pipe to be cut and the blade of VK30 at the beginning of the operation.

(Unit : mm)

Item No.	Cutting ability		Size	Weight (g)	Remarks
	Size(VP)	External diameter			
VK 20	13 ~ 20	Under 26	210	320	
VK 30	13 ~ 30	Under 38	220	480	

PVC PIPE CUTTER

VK 42

The ratchet mechanism enables speedy and easy single hand cutting.
No scraps after cutting, excellent cut, superb cut surface.
The attachment allows cutting of the wiring protector.

Example of use

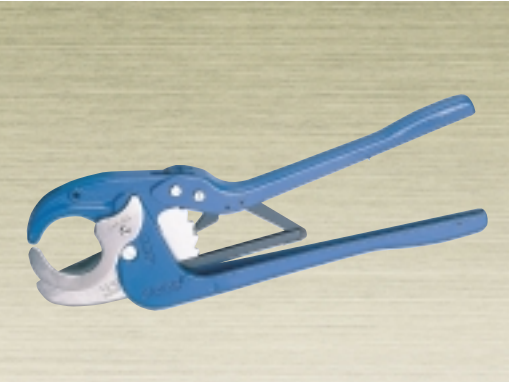

⚠ A quick feeding mechanism is applied to the blade of VK30. Never put the hands or fingers between the pipe to be cut and the blade of VK42 at the beginning of the operation.

(Unit : mm)

Item No.	Cutting ability		Size	Weight (g)	Remarks
	Size(VE)	External diameter			
VK 42	14 ~ 36	Under 42	225	450	

PVC PIPE CUTTER

VK 50

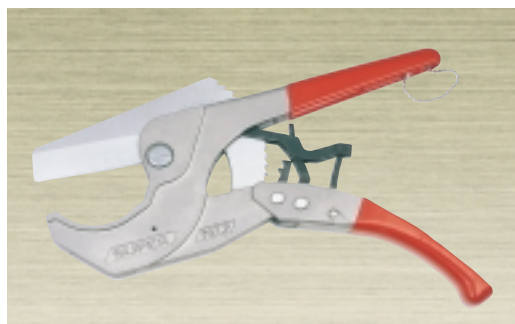

The ratchet mechanism enables speedy and easy single hand cutting.
No scraps after cutting, excellent cut, superb cut surface.
The pipe holder prevents pipe deformation and cracking enabling smooth cutting.

⚠ Always retract the blade when opening and closing the pipe holder.

(Unit : mm)

Item No.	Cutting ability		Size	Weight (g)	Remarks
	Size(VP)	External diameter			
VK 50	13 ~ 50	Under 60	410	1,080	

PVC PIPE CUTTER

VK 50N

Possible to cut polyethylene piping with an external diameter of 63mm. Compact type, the ratchet mechanism enables speedy and easy single hand cutting. No scraps after cutting, excellent cut, superb cut surface.

(Unit : mm)

Item No.	Cutting ability		Size	Weight (g)	Remarks
	Size(VP)	External diameter			
VK 50N	13 ~ 50	Under 60	280	700	

PE PIPE CUTTER PAT.

PE 42

Optimal for cutting polyethylene and sheath piping. Possible to cut polybuten piping. The ratchet mechanism enables speedy and easy single hand cutting. No scraps after cutting, excellent cut, superb cut surface. The pipe holder prevents pipe deformation and cracking enabling smooth cutting.

Example of use

(Unit : mm)

Item No.	Cutting ability		Size	Weight (g)	Remarks
	Size(PE)	External diameter			
PE 42	10 ~ 30	Under 42	225	450	

⚠ Always retract the blade when opening and closing the pipe holder.

New series

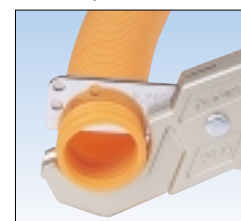

FLEPOLY CUTTER PAT.

PC 38

Applicable tubes
Superb cut for soft resin piping such as polyester resin flexible tube, sheath tube, polybuten, etc.
Attaching the blade in the opposite direction, then you can use again, which is very economical.
The body is made of aluminum, making it light ad very durable.
The grip is grooved, evading slipping.

Example of use

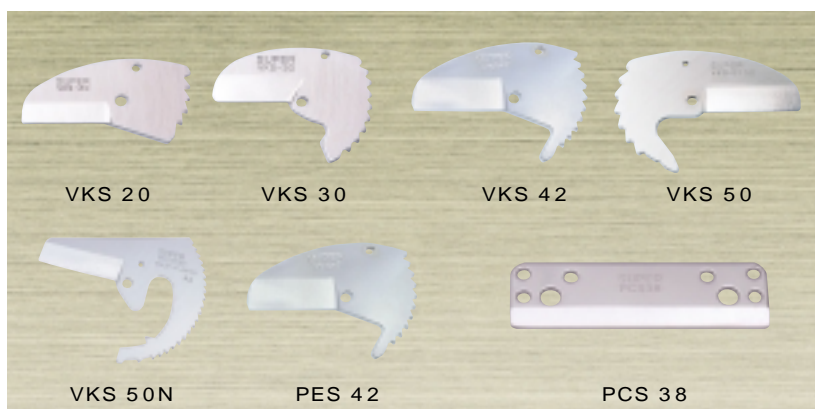

(Unit : mm)

Item No.	Cutting ability		Size	Weight (g)	Remarks
	External diameter	Under			
PC 38	External diameter	Under 38	218	155	

The body is of baking finish. *PVC pipe is not to be cut off.

New series

SPARE BLADES for PVC pipe cutter

VKS 20~ PES 42

Easy blade replacement.
Clean cutting and excellent durability.

Item No.	Applicable cutter	Remarks
VKS 20	VK 20	
VKS 30	VK 30	
VKS 42	VK 42	
VKS 50	VK 50	
VKS 50N	VK 50N	
PES 42	PE 42	
PCS 38	PC38
